SHORT DESCRIPTION

Accessibility Checker is an online tool to check **accessibility and compliance of websites**. The tool helps to identify web accessibility issues and gives exact instructions to adjust them.

MAIN FEATURES

AccessibilityChecker.org provides solutions for accessibility:

- **Free & Paid Scans:** free scans offer a quick overview, while paid scans provide a comprehensive analysis of website's accessibility compliance.
- **Detailed Fixing Instructions:** each scan comes with detailed instructions on how to resolve any identified issues.
- **Software & Service Recommendations:** advice on accessibility services to automate and simplify processes.
- **Consulting & Manual Services:** the team offers consulting and manual services to handle more complex accessibility challenges.

HELPS WITH

AccessibilityChecker.org is committed to providing tools and services that not only **comply with legal standards** but also **promote a more inclusive online environment**.

Solutions are designed to be easy to implement and effective in **addressing the needs of all website visitors**.

Legislation requires websites to be accessible to users with disabilities. A compliant website not only ensures a safe and effective experience for all users, but it also protects from liability.
