SHORT DESCRIPTION

ClaroRead provides students with different reading support tools, including text-to-speech, and support for speech-to-text integration.

MAIN FEATURES

- **Text-to-speech:** Read whole documents aloud with easy-to-follow dual colour highlighting.
- **Speaking spell checker:** users can hear the alternatives.
- **Listening later:** Read text into an audio or video file.
- **Dictation:** When paired with Dragon Professional software.
- **Dictionary:** Speaking dictionary for any word in any program with over 300,000 English definitions.
- **Screen capture:** Read text displayed on the screen aloud.
- **Word prediction:** Suggests words as students type to help with spelling and writing.

HELPS WITH

Reading: helps neurodiverse people, especially those with Dyslexia, by offering assistance for reading by converting text into audio.

Writing: helps people with attention difficulties and writing difficulties, by helping with correcting text; supporting audio to text software; and suggesting words.

Light sensitivity: text to audio can also help those who are unable to stare at screens and monitors for extended periods of time.
