

Google Docs

<https://drive.google.com>

SHORT DESCRIPTION

Google docs reviews grammar, spelling and punctuation. It can benefit those with dyslexia or dysgraphia and related conditions, to help write texts.

**Also available in Gmail.*

MAIN FEATURES

- **Spelling:**
 - Checks for mistyped and misused words.
 - Suggests punctuation.
 - For English, can point out differences between US and UK versions.
- **Grammar:**
 - Suggests corrections to grammar. Not always accurate, but typically of high quality.
- **Predictive text:**
 - Offers users suggested words or phrases if desired. Usually the suggestions are from the most common similar phrases in use.

HELPS WITH

Writing skills: Useful for people who struggle with spelling, especially in non-transparent languages like French and English.

Processing skills: Useful for people who have trouble completing their thoughts or knowing what to write by offering some predictions.

Foreign languages: Useful for people whose are working in an additional language overcome easily overlooked errors.
