

NonVisual Desktop Access

Link: <https://www.nvaccess.org/>

SHORT DESCRIPTION

NV Access is a registered charity and software development company. The NVDA, a free, open source, globally accessible screen reader for the blind and vision impaired.

MAIN FEATURES

NVDA: Non-Visual Desktop Access is a free, high quality screen reader, accessible to all. It translates visual information verbally, so people with visual impairment can make sense of what is on screen.

NVDA has been translated by volunteers into more than 55 languages, and been used by people in more than 175 countries. It has also won multiple awards.

NVDA is open source software, which means the code is accessible to anyone. This enables translators and developers around the world to continually contribute to its expansion and improvement.

HELPS WITH

NV Access enables independence and enhances the welfare and health of blind and visually impaired people all over the world.

It facilitates greater participation and independence in all facets of life , most importantly within the areas of education and obtaining employment.
