

# Read & Write

[The link: Read&Write For Education](#)

## SHORT DESCRIPTION

Read & Write helps students to study and absorb information-heavy documents, supporting people with Specific Learning Disorders, particularly Dyslexia. It can also support people to better understand the English language.

## MAIN FEATURES

**Text - to - speech** - reads what users type out loud with easy to follow features such as dual-colour highlighting.

**Text & Picture Dictionaries** - provides definitions for key words and displays images to help user with word comprehension.

**Vocabulary List** - creates vocab lists instantly into a new document for the users to organise new words.

**Rewordify** - simplifies the readability of text without changing the meaning. This feature is only available for Google Chrome.

**Check it** - reviews writing for incorrect grammar and spelling.

**Audio Maker** - converts text to audio and downloads it.

**Talk & Type** - Transforms spoken word into text. This feature is not available for Mac.

## HELPS WITH

**Reading Skills:** Provides text -to-speech, so users can hear what is typed aloud and has colour highlighting for each word. The app also sorts highlighted words into a vocabulary list in a new document and provides pictures and definitions to help with word comprehension.

**Writing Skills:** Converts text to audio and allows users to download audio for easy listening. Turns users speech into text so that they can create written documents more easily.

**Proofreading:** Simplifies text without changing the meaning and checks writing for incorrect grammar and spelling.
